In the Specification:

Please replace the paragraph at page 5, lines 18-29 with the following amended paragraph:

Various embodiments of the present invention will now be described with reference to **Figures 1 through [[5]] 6**. **Figure 1** illustrates an exemplary embodiment of a data processing system **130** in accordance with embodiments of the present invention. A data processing system **130** typically includes input device(s) **132** such as a keyboard or keypad, a display **134**, and a memory **136** that communicate with a processor **138**. The data processing system **130** may further include a speaker **144**, and an I/O data port(s) **146** that also communicates with the processor **138**. The I/O data port **146** can be used to transfer information between the data processing system **130** and another computer system or a network, for example, the Internet. These components may be conventional components such as those used in many conventional data processing systems which may be configured to operate as described herein.
